

Weekly Estate Bulletin – Golden Lane Estate.

Week ending 18 March 2016

Estate Matters:

Smoking Cessation Clinic

There will not be a smoking cessation clinic at the Golden Lane estate office this coming Monday 21 March, but one will be held at Artisan Street Library, between 16:00 – 18:00 on the same day.

Great Arthur House Lift 1

Unfortunately, it has not yet been possible to put this lift back into service. Technicians and engineers are continuing to do everything within their power to repair the lift. We apologise for the delay.

Great Arthur House Recycling Centre

Recently, we have had several incidents of people dumping inappropriate items at the Great Arthur House recycling bulk collection point. Please use this area for dumping bulk items only, as the area is being left in very untidy state on a regular basis. There are no facilities for recycling paints, so paint tins should be disposed of in the normal refuse paladins having first made sure that lids are tightly secured. Please **do not** leave bulk items elsewhere outside bin rooms or in communal areas.

Communal Repairs:

Hatfield House

A fault with the balcony lights on all floors was reported to repairs on 16.3.16. An electrician attended and a new light sensor is now on order. In the interests of safety and security the faulty sensor has been overridden and lights will remain on until the repair is complete.
